NEBOSH ELEARNING

NEBOSH Environmental Management Certificate

Awarded by NEBOSH | SWT is a NEBOSH Gold Learning Partner

PRICE	STUDY	SUPPORT
From £499	Self-paced online	Tutor support

About this course

The NEBOSH Environmental Management Certificate is designed to give learners a solid understanding of how to assess, manage and improve environmental performance in the workplace. It focuses on practical environmental management systems and draws on UK, EU and international standards and best practice.

This qualification helps organisations to:

- Improve resource efficiency and reduce waste and costs
- Understand how their activities impact the environment
- Strengthen compliance with environmental legislation and reduce the risk of fines and penalties
- Develop and maintain recognised environmental management systems that can enhance competitiveness during tenders and audits

The NEBOSH Environmental Management Certificate is split into two assessed units:

Unit EC1 - Management and Control of Environmental Hazards

Covers key principles of environmental management, major workplace hazards, controls, and how to implement an effective environmental management system.

Unit EC2 - Environmental Practical Application

A practical assessment where learners carry out an environmental review in their own workplace (or a suitable environment) and make realistic recommendations for improvement.

Studying by eLearning

- Fully online, self-paced EMC course delivered through our eLearning platform
- Study anytime, anywhere with tutor email support when you need it
- EMC1 open book exam and EMC2 practical are booked and paid for separately
- Unlimited course access and online learner resource folder to support revision

Who is the course for?

This course is ideal for managers, supervisors, health and safety practitioners and anyone with environmental responsibilities who needs a recognised NEBOSH environmental qualification.

What you will learn

- NEBOSH Environmental Management Certificate syllabus

What is covered in the NEBOSH EMC course syllabus?

The syllabus covers environmental management systems, key environmental principles, pollution, waste and resource use, environmental risk assessment and control, and relevant UK, EU and international legislation.The qualification is divided into two units, each of which is assessed separately:

Unit EMC1 - Management and Control of Environmental Hazards

- Element 1: Foundations in Environmental Management
- Element 2: Environmental Management Systems
- Element 3: Environmental Impact Assessments
- Element 4: Control of Emissions to Air
- Element 5: Control of Contamination of Water Sources
- Element 6: Control of Waste and Land Use
- Element 7: Sources and Use of Energy and Energy Efficiency
- Element 8: Control of Environmental Noise
- Element 9: Planning for and Dealing with Environmental Emergencies

Unit EC2 - Environmental Practical Application

How the course is assessed

The course is assessed by an EMC1 open-book written exam and an EMC2 practical environmental assessment carried out in a real or simulated workplace.

Entry requirements

There are no formal academic entry requirements, but learners should have a good understanding of written English and an interest in environmental or health and safety management.

NEBOSH recommends that learners undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System (IELTS) score of 6.0 or higher in IELTS tests.

What you will get from the course

Delegates gain a solid understanding of workplace environmental issues, how to manage environmental risks, and the knowledge to support or implement an environmental management system.

Benefits of holding the NEBOSH Environmental Certificate course include:

The NEBOSH Certificate in Environmental Management is accepted by the Chartered Institution of Water and Environmental Management (CIWEM) as meeting the requirements for Technician Membership (TechCIWEM).
